ASSESS

For EOS Operators

AI Strategic Assessment — for EOS Companies

You run on EOS. You know AI needs a place in your strategy. You don't have a deep technical bench to figure out where it fits. Assess gives you a defensible AI roadmap that plugs straight into your rocks, your accountability chart, and your L10 cadence.

EOS CLIENT INVESTMENT

$4,000 USD ~~$5,000~~ EOS

2–3 week engagement
Fits inside your quarter

Your EOS framework gives us a head start — $1,000 discount applied automatically

Accountability Chart
Becomes our RACI in minutes — no separate exercise needed.

Rocks & Goals
Tell us your priorities and timeline without us having to discover them.

Scorecard
Shows the KPIs that matter — and where AI can move the numbers.

L10 Cadence
Defines your operating rhythm — where the AI roadmap lands.

WORKING SESSIONS

We learn your team and tools

- Accountability seats — technical skill of each key player
- Current tech stack — performance and bottlenecks
- Where manual handoffs slow your scorecard down

WHAT YOU WALK AWAY WITH

A roadmap, not a pitch

- What's working — and what AI can improve quickly
- Where AI or agentic support actually moves the needle
- Strategic AI opportunities mapped to your rocks

REPORT & ONGOING

Deliverables

- Written report — prioritized AI recommendations
- 3–6 month roadmap aligned to your rock cycle
- Optional monthly review — refresh between Quarterly Sessions
- Optional AI coaching for your leadership team

HOW IT FITS YOUR QUARTER

L10-friendly engagement

- Kicks off in week 1 with your Integrator and Visionary
- Working sessions slot around your existing L10s
- Report delivered in time for your next quarterly planning
- Next steps land as rocks or as a Visgo follow-on engagement

WHY VISGO FOR EOS OPERATORS

You don't need another vendor pitching tools. You need a strategic partner who speaks your language.

Visgo brings decades of product, platform, and operations experience to bear on your business — applied through the same agentic framework we use internally. We give you a roadmap that fits how you already operate, not one that fights it. Assess is a standalone engagement: no obligation to build with us afterward.
