AI Strategic Assessment

A clear AI roadmap — before you commit time or budget. We review your business, processes, team, and roadmap, then tell you plainly where AI moves the needle and where it doesn't.

EOS CLIENT RATE

$4,000 USD ~~$5,000~~ EOS

Standard: $5,000 USD
Timeline: 2–3 weeks

STRATEGIC REVIEWS

We learn your business

- EOS goals, rocks, and team structure
- Core processes that run your operations
- Company RACI by job function
- Company and product roadmaps with dependencies

WORKING SESSIONS

We learn your team

- RACI deep-dive — key players and their technical skill level
- Technical tools in use — performance and bottlenecks

GOALS OF THE ASSESSMENT

What you walk away with

- What works well — and what AI can improve quickly
- Where AI or agentic support will move the needle
- Strategic AI opportunities woven into your roadmap

REPORT & ONGOING

Deliverables

- Written report with prioritized recommendations
- 3–6 month roadmap of recommended next steps
- Optional monthly review — refreshed plan as you evolve
- Optional AI coaching, oversight, and monthly progress reports

BUILT FOR

Leaders who want a defensible AI strategy — without a deep technical bench.

You know AI is coming for your industry. You want a strategic path forward, not a vendor pitch. Assess gives you the roadmap your operations team needs to make confident decisions about where AI fits, what to prioritize, and what to ignore. Standalone engagement — not a sales funnel.
